DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/11/08 has been entered.

Allowable Subject Matter

2. Claims 1-3, 6-14 and 16-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art does not specifically disclose claim 1 as amended on 4/7/08: a method for activating and deactivating parameter sets during decoding of a bitstream for display comprising the steps of: (A) storing a first picture parameter information set associated with a first identification value and a second picture parameter information set associated with a second identification value in a computer readable storage medium, wherein said first and said second picture parameter information sets comprise infrequently changing picture parameter information; (B) tagging said first picture parameter information set as active in response to a reference to said first identification value in a bitstream; (C) changing the tag of said first picture parameter information set from active to inactive and tagging said second picture parameter information set as active in response to a reference to said second identification value in said bitstream and (D) tagging said

second picture parameter information set as inactive and re-tagging said first picture parameter information set as active in response to a subsequent reference to said first identification value in said bitstream, wherein said first picture parameter information set and said second picture parameter information set are received in said bitstream prior to receiving said reference to said first identification value and said reference to said second identification value, respectively. Thus, independent claim 1 is patentable. Independent claims 10 and 11 are patentable for similar reasons as claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
